Quarterly Update – 2025.Q1

”

We are pleased to share a brief update on our progress and impact our friends and supporters have helped us make this quarter.

Mothers & Babies: Our Impact This Quarter

Pregnant Mothers Supported: 37

- 26 residing at the shelter
- 11 supported in the community

Nursing Mothers: 28

- 21 at the shelter
- 7 in the community
-

Newborns Welcomed: 29

- 25 born at the shelter
- 4 born in the community

Current Babies at Shelter: 33

- Includes 8 children of school-going mothers

By the Numbers

Pregnant & Admitted to the Teenage Home	21
Pregnant & Placed in Foster Care	11
Natural Births	4
C-Section Births	18
Babies Born in Foster Care	7
Infant Losses	0
Total Pregnant Moms	26
Current Total of Babies	33

Shelter Capacity & Expansion Needs

Our shelter is currently at full capacity. Due to limited space, we are unable to accommodate all the mothers and babies in need. Supporting mothers in the community—especially through foster placements—is significantly more costly and complex.

We are actively seeking resources to expand our shelter facilities and provide safer, more stable care for every mother and child.

March for Life: Our First Step Forward

In a groundbreaking event, **Rescue Women's Foundation** hosted its first-ever **March for Life**—a bold public stand against teenage pregnancy. This inaugural event was aimed at raising awareness about teenage pregnancy and supporting vulnerable women and girls in our community.

Despite rain and logistical challenges, the event was a resounding success.

- Funds Raised: \$1,653
- Event Expenses: \$1,570
- Unmet Needs: Unable to distribute Mama Kits or sanitary pads due to a funding gap (\$4,500 budgeted).

Community Involvement:

36 participants, including active male involvement
Sparked critical conversations and inspired a call to action.

We were especially proud to involve men and boys in the movement. Their engagement is vital in building a society where women and girls are protected, respected, and empowered.

Special thanks to everyone who participated. Your contributions helped spark critical conversations and inspired action.

Quarterly Budget Overview

Medical	\$7,500
Food	\$4,500
Rent	\$900
Salaries & Stipends	\$1,500
Fuel	\$600
Community Support	\$1500
Utilities	\$1500
Total	\$18,000 USD

Medical expenses continue to be our greatest need, followed closely by food and shelter services.

March for Life: *What's Next: A Vision for the Future*

We plan to make ***March for Life*** an annual event, held between July and August to avoid seasonal rains. Future plans include collaboration with schools and churches.

Our vision is to continue creating awareness, educating communities, and empowering young people, especially boys, to take responsibility and stand against teenage pregnancy.

Together, We Can Do More

Your support helps us build a future where:

- Teenage pregnancies are reduced
- Girls stay in school and thrive
- Boys and men stand as protectors and advocates
